NOT A BODY FOUND IN BATTERED HULK OF SUBMARINE F-4

Undersun Boat, Wrecked
March 25, Exposed to
View in Drydock.

CAPING HOLES IN THE HULL

Navy Officers Will Seek for Traces of
23 Victims Amid Debris Which
They Believe Marine Crewmen
May Have Destroyed the Corpses

By Associated Press
MOBILE, Ala., Aug. 31.—The hulk of the United States submarine F-4, which was wrecked on March 25, 1915, was today exposed to view in a drydock at the Naval Station here. The hulk, which was found on the bottom of the Gulf of Mexico, was in a state of complete ruin. The hull was broken in many places, and the interior was filled with debris. Navy officers are now working to find the remains of the 23 crewmen who were on board when the submarine was wrecked. They believe that the marine crewmen may have destroyed the bodies of the crewmen who were on board when the submarine was wrecked.

BRITISH LOST 77

LONDON, August 31.—(London) A report from the British Admiralty today stated that the British submarine E-11 had been lost on August 27, 1915, with the loss of 77 crewmen. The submarine was on a mission to sink the German battleship Goeben, but was itself sunk by the German submarine U-19.

FRANCE PREPARING FOR WINTER CAMPAIGN

PARIS, August 31.—France is preparing for a winter campaign against Germany. The French government has announced that it will launch a new offensive in the spring of 1916. The campaign will be supported by a large number of new troops and modern weapons.

CHOLERA IN AUSTRIA

VIENNA, Aug. 31.—Cholera has been reported in Austria. The disease has been found in several cases in the city of Vienna. The health authorities are now working to control the spread of the disease.

TRAVEL COMES HIGH

COSTS DIVISION MAN \$101 TO RIDE ON
B & O TO TOWN.

The record railroad fare from Dawson to Connellsville was paid by a Dawson man after a hearing before Alderman Fred Munk yesterday. The fare was \$101, which was a record for the route.

LOW TEMPERATURE

Coldest August Day Reported in
the Middle West.

By Associated Press
WASHINGTON, Aug. 31.—Summer's coldest weather has spread today over the northern part of the country from the Gulf States to the Atlantic coast. The temperature in many places has fallen to a record low for the month.

SHORT TERM BONDS VOTED BY COUNCIL FOR STREET PAVING

Ordinances are Passed for
Comprehensive Scheme
of Improvements.

THE WORK IS TO BE RUSHED

Plans for better highways and
improvement of the city streets
were voted by the council today.

The council has passed an ordinance authorizing the city to issue short-term bonds for the purpose of paving the city streets. The bonds will be used to pay for the cost of the paving work.

\$8.75 For this \$12 English Tapstry Spring Seat and Back

Kaltex, Living Room Rocker.

RECLAMATION OF SOIL LAID WASTE BY OVENS, IS AIM

Farm Agent P. E. Daugherty
Would Revive the Bar-
ren Spaces.

HE SAYS IT CAN BE DONE

Conditions in the Coke Region Are
Similar to Those in New England.
Where Intensive Farming Has Made
Good Progress: Trick Example Cited

The reclamation of lands adjacent to abandoned coke plants, the revegetation of land long since allotted for farming purposes because of more remunerative coal operations, is a doctrine that is being promulgated by P. E. Daugherty, agent for the Fayette County Farm Bureau. Lands that are now allowed to stand unproductive because of the destruction of vegetation upon them, caused by the proximity of coke plants, could be reclaimed by the employment of a scientific farming method, he made in a profit producing manner, according to the expert.

Throughout the coke region the eye of the traveler is greeted by numerous abandoned plants, the former owners of the immense Connellsville coke plant where the coal has been worked out and have been abandoned for new fields. With the coming of the new industry, land formerly dedicated to farming was abandoned because of the harmful effect of the coke ovens. Gases, smoke and heat arising from the ovens destroyed vegetation and the farmers ceased to make any attempt to renew the crops. A typical example of this is the land in the Fayette county which is in exactly the same condition as the worked out lands in the New England section, in the opinion of the agricultural expert. There and in other places it has been proved that the land may be reclaimed to its former productive state. The recent movement of the colleges and universities along this line has shown that intensive farming, as taught in the various agricultural institutions, is to be the life-saver of the abandoned farms of the eastern states.

The time for reclamation of land adjacent to abandoned coke plants is placed at from two to six years, depending on the state of the soil and the location. According to the methods employed, time and green manure are used to a great extent. That such abandoned lands can be reclaimed has been shown by the successful cultivation of gardens by the employees of the H. C. Trick Coke Company. These gardens were cultivated under adverse conditions and in some cases, were transformed from ash heaps. Several companies in the southern part of the region where ovens have been out of blast for several years have partitioned their land out on shares, and following modern methods, what ordinarily is left to become a barren waste is brought to a high degree of cultivation.

Where the coal has been mined too close to the surface, experiments have found that the amount of cultivation will bring it back to a crop bearing condition. This is caused by the lack of moisture. All the rain passes through the outer soil to the subsurface and the inner soil becomes arid.

CONNELLSVILLE DAY, THURSDAY

Nirella's Band to Play Concert After-
noon and Evening

Thursday, September 2 will be Connellsville Day at Shady Grove Park. Dr. Randall, press agent for the park, was in town today assuring his friends here that nothing had been left undone to provide a good time for Connellsville folk.

Nirella and his Greater Pittsburgh Band will provide music afternoon and night. On the way to the park the band will stop off here and play a while. At last, the new national band, Nick Farillo, the cornet wonder and C. D. Brubaker, a composer of some note, will be with the band. There will be sports, dancing and fireworks in addition to the band.

Mount Pleasant

Special to The Courier

MOUNT PLEASANT, Aug. 31.—The family of Joseph Belmont of West Main street had a peculiar experience and are wondering if this is a sign that Dime Time is ready to smile on the family. The Belmonts owned a common 8-day clock and this would not run. Mr. Belmont undertook to mend the clock and after putting it together had far more wheels and fixtures than he could find a place to put, so that for two years the clock had not run. But the other evening when the family were gathered around the clock struck the time in succession, pealing out the time of day. The Belmonts are still wondering what could have made the clock strike.

The Mount Pleasant township high school opened yesterday and one hundred and fifty-two students registered. This is the largest number of students to ever register at this high school, which is becoming more popular and better equipped each year. A faculty of ten was present yesterday, including the new principal, Mr. McNaughton of Pittsburg, and the new English teacher, Miss Olive Neundorfer of Turtle Creek. The work in athletics will be pushed right along after the first week or ten days spent in arranging and organizing the various courses of study. There have been a number of changes made in all departments and new and up-to-date text books have been added in practically all of the departments, and this, with the course rearranged, will add greatly to the work in the school. The first work in the gymnasium will be one of the special features of the year. An effort is being made to have Martin G. Brumbaugh for the next athletic director, which has been set for October 15th but owing to Governor Brumbaugh's absence from the state it will be necessary to name a double date later. A number of special features which will be added to the day program in the gymnasium will be one of the special features of the year. An effort is being made to have Martin G. Brumbaugh for the next athletic director, which has been set for October 15th but owing to Governor Brumbaugh's absence from the state it will be necessary to name a double date later.

Brumbaugh for the next athletic director, which has been set for October 15th but owing to Governor Brumbaugh's absence from the state it will be necessary to name a double date later.

Funeral services will be resumed at the Leighton Presbyterian Church Sunday, September 5 with a sermon appropriate to Labor Day, and there will also be a special music. Council held a special meeting last evening to take up the matter of disposing of the \$15,000 worth of bonds advertised to be sold at public auction. The committee has decided to have the bonds sold at a public auction at the Leighton Presbyterian Church Sunday, September 5 with a sermon appropriate to Labor Day, and there will also be a special music.

The Mount Pleasant Leagues in the open held a meeting in the Odd Fellows hall last evening and elected officers for the coming year. Those present were W. C. Bailey and John McCarty. The membership committee reported eleven new members, including a total of 18. A motion was adopted to hold a regular meeting on Monday at a date to be set later.

Miss Lora Long is visiting Morgantown today.

COAL FOR EXPORT

Local Lignite Is Being Moved From Port of Philadelphia.

The port of Philadelphia is enjoying a boom owing to the vast quantities of material being exported to foreign shores. One of the commodities greatly contributing to this increase is bituminous coal. For the six months ended June 30 the shipments totaled 1,000,000 tons, a gain of over 40 per cent. For the three month period ending with June there was exported 290,000 tons, being a gain of 15 per cent. The only tonnage will approximate 100,000, while for only less than 50,000 tons was shipped.

Most of the cargoes are destined to Italy, France, Spain, Brazil, Norway, Argentina, Republic and Chile. These countries heretofore received the bulk of their supply from Wales, Lancashire and Belgium but they have all been completely cut off by the embargo on coal while the fields of France and Belgium are held by the German army.

The bunker coal men who were deprived of the greater portion of their trade by the withdrawal of many of the merchant ships are taking advantage of the opportunity for an outlet for their coal in the rapidly developing bunker trade that has arisen in connection with the opening of the Panama Canal.

BY-PRODUCT PLANTS PRACTICAL ONLY IN POPULATION CENTERS

Must be Located Where Gas
May be Disposed of
at a Profit.

REASONS FOR BEEHIVE OVENS

Connellsville Region Offers No More
Let for Vast Quantities of Gas
Which are Among the Most Valuable
of By-Products from Coking Coal.

Conservationists, especially those of a technical turn, never cease bewailing the great loss of by-products in bee-hive coking as practiced in the Connellsville region and holding the Connellsville producers for their criminal waste. The Courier has from time to time endeavored to point out the reasons for this waste. In this region the waste is not only a loss of the industry but may not be made over to every expensive new manufacturing plant for a number of good and substantial reasons. Coal gas is a valuable product of the coking process. In its last use it is a waste.

Much has been said in recent weeks concerning the wastefulness of coking coal in bee-hive ovens. To this subject much space has been devoted in the public press, both to highlight and popularize. The main portion of coke made in this country is made in still bee-hive ovens. In this respect the industry presents a marked contrast to the practice in some other countries, Germany in particular. Wasteful as our methods may appear it should be borne in mind that the coke industry, like all other industries, makes permanent progress through economic expedients only. When an industry is in an unprofitable position, it should be able to turn its back on its old methods and adopt new ones. In the case of the coke industry, the question of whether the sum involved in the cost of a new plant is a hundred million dollars, it is reasonably certain that the investment will be made. By-product coke ovens cost more money than do bee-hive ovens. They are, however, being built at a rapid rate and new coke ovens will justify the investment.

In considering the replacement of bee-hive ovens by those of the by-product variety one important fact should not be overlooked. The most important fact is that the coke industry, like all other industries, makes permanent progress through economic expedients only. When an industry is in an unprofitable position, it should be able to turn its back on its old methods and adopt new ones. In the case of the coke industry, the question of whether the sum involved in the cost of a new plant is a hundred million dollars, it is reasonably certain that the investment will be made. By-product coke ovens cost more money than do bee-hive ovens. They are, however, being built at a rapid rate and new coke ovens will justify the investment.

INDIAN CHIEF

INDIAN CHIEF, Aug. 30.—A P. D. Dorey returned from Scotland this morning.

Mr. and Mrs. L. E. Miller of Connellsville spent over Sunday with Mr. Miller's parents, Mr. and Mrs. W. P. Miller at Rogers Mill.

Miss Geneva Cole left for her home in Lebanon today.

Misses Jean and Julia Higg spent yesterday here among friends.

U. R. Adams of Uniontown, spent over Sunday with his family at Dayton.

Horace Tedlow of Mill Run, is a business caller in Connellsville today.

Edwin H. H. is spending today here on business.

Frank Lindley of Egmont, is spending a few days among Mill Run friends.

Mr. H. Hutchison of Mill Run is a business caller in Connellsville today. Theron Cooper left for Buffalo, N. Y. to spend a week among friends. T. S. Barnes is along the Indian Creek valley today on business.

OMIOPTE

OMIOPTE, Aug. 31.—Miss Jesse Hail of Sugar Land, left yesterday for Humboldt to visit friends for a few days.

Miss Helen Horton and brother, Walter, arrived yesterday to visit with friends for a few days.

Mrs. W. H. Hafferty and son, Hurch, returned to their home yesterday. In visit with relatives in Mount Pleasant.

Miss Spauld was a business caller in Connellsville yesterday.

George Kuntz of Humboldt, was a business caller here yesterday.

T. W. Hemin was in Connellsville and Uniontown yesterday on business.

James Stutches of Scotland, was a visitor here yesterday.

That Miss W. H. Hafferty of Uniontown is visiting here for a few days.

Anna Gordon of Wilkesburg and Thomas J. Galt of Pittsburgh returned to their homes yesterday on a two week vacation.

Miss and Mrs. D. H. Thorpe left for a visit to Greensburg.

The THOUSANDTH WOMAN

by ERNEST W. HORNING

Author of 'The AMATEUR CRACKSMAN', 'RAFFLES', Etc.

ILLUSTRATIONS by O. IRWIN MYERS

"Yes. Then I met him on the river the following summer, and found he had not rooms in one of the Nell Gwynne Cottages, if you call that a place."

"I see."

But there was no more to see; there never had been much, but now Blanche was standing up and gazing out of the balcony into the belt of singing sunshine between the opposite sides of the road and the invisible river area away.

"Why shouldn't we go down to Littleford and get out the boat if you're really going to make an afternoon of it?" she said. "But you simply must see Martha first; and while she's making herself up, let me tell you just take something for the good of the house. I'll bring it to you on a lovely tray."

She brought him alphon, stoppered bottle, a silver bleach-box of ancient memories, and left him alone with them some little time; for the young mistress, like her old relative in another minute, was simply dying to make herself more presentable. Yet when she had done so, and came back like a snow, in a skirt and skirt just home from the laundry, she saw that he did not see the difference. His devouring eyes shone neither more nor less; but he had also devoured every biscuit in the box, though he had begun by saying that he had lunched in town, and stuck to the table still.

Old Martha had known him all his life, but at the period when he used to come to nursery tea at Littleford. She declared she would have known him anywhere as he was, but she simply hadn't recognized him in that photograph with his beard.

"I can see where it's been," said Martha, looking him in the lower temple. "But I'm so glad you've had it off, Mr. Cazale!"

"There you are, Blanche!" cried Cazale. "You said she'd be disappointed, but Martha's got better taste."

"It isn't that, sir," said Martha earnestly. "It's because the dreadful man who was seen running out of the drive at your old home, he had a beard! It's in all the notices about him, and that's what's put me against them, and makes me glad you've had yours off."

Blanche turned to him with too ready a smile; but then she was really not such a great one as she pretended, and she had never been in better spirits in her life.

"You hear, Sweep? I call it rather lucky for you that you were—"

But just then she saw his face, and remembered the things that had been

"Where Did You Meet the Fellow?" He inquired.

said about Henry Craven by the Cazale friends, even ten years ago, when she really had been a girl.

CHAPTER V.

An Unlikely Visitor.

She really was an still, for in these days it is an elastic term, and in Blanche's case there was no apparent reason why it should ever come to apply, or to be applied by every decent tongue except her own.

Much the best tennis-player among the ladies of the neighborhood, she drove an almost unbearably long ball at golf, and never looked better than when paddling her old canoe or putting in the old punt. And, yet, this wonderful September afternoon, she did somehow look even better than at either of any of those congenial pursuits, and that look before they reached the river; in the empty house, which had known her as lady, child and grown-up girl, to the companion of some part of all three stages, she looked a more humorous and a lovelier Blanche than he remembered even of old.

But she was not really lovely in the least; that also must be put beyond the pale of misconception. Her hair was beautiful, and perhaps her skin, and, in some lights, her eyes; the rest was not. It was yellow hair, not golden, and Cazale would have given all he had about him to see it down again in the oldest of old days; but there was more gold in her skin, for so the sun had treated it; and there was even blue or glint (in certain lights,

other, of a straw hat over a stack of straw hair, that had not gone out to Australia—yet.

And of course just then a step sounded outside somewhere on a stone gravel. Confound those caretakers! What were they doing, prowling about?

"I say, Blanche!" he blurted out. "I do believe you'd like it out there, a sportswoman like you! I believe you'd take to it like a duck to water."

He had floundered to his feet as well. He was standing over her, feeling his way like a great fatuous coward, as some might have thought. But it really looked as though Blanche was not attending to what he did say; yet neither was she watching her little anglers stumped to let upon the silver stream, nor even seeing any more of Nelly Potts in the Australian veranda. She had come home from Australia, and come in from the river, and she was watching the open door at the other end of the old schoolroom, listening to those confounded steps coming nearer and nearer—and Cazale was gazing at her as though he really had said something that deserved an answer.

"Why, Miss Blanche!" cried a voice. "And your old lady-in-waiting figured I should find you town!"

Hilton Toye was already a landman and a Londoner from top to toe. He was perfectly dressed—for Bond Street—and his native simplicity of bearing and address placed him as surely in the land as the present picture. He did not look the least bit out of it. But Cazale did, in an instant; his old bush clothes clung at once into a merely shabby suit of despicable cut; the romance dropped out of them and their wearer, as he stood like a trussed turkey-cock, and watched a bunch of housewifely duffers presented to the lady with a little gem of a natural, courteous, and yet characteristically racy speech.

To the lady, mark you; for she was one, on the spot; and Cazale was a man again, and making a mighty effort to behave himself because the hour of boy and girl was over.

"Mr. Cazale," said Toye, "I guess you want to know what in thunder I'm doing on your grounds so soon. It's hogback, sir, because I wanted to see you quite a lot, but I never thought I'd strike you right here. Did you hear the news?"

"No! What?"

There was no need to inquire as to the class of news; the immediate past had come back with Toye into Cazale's life; and even in Blanche's presence, even in her schoolroom, the old days had flown into their proper place and place in the perspective.

"They've made an arrest," said Toye; and Cazale nodded as though he had quite expected it, which set Blanche off trying to remember something he had said at the other house; but she had not succeeded when she noticed the curious pallor of his chin and forehead.

"Seruton?" he just asked.

"Yes, sir! This morning," said Hilton Toye.

"You don't mean the poor man?" cried Blanche, looking from one to the other.

"Mr. Cazale!" said Toye, "I Guess You Want to Know What I'm Doing on Your Track."

"Yes, he does," said Cazale gloomily. He stared out at the river, seeing nothing in his turn, though one of the anglers was actually busy with his reel.

"But I thought Mr. Seruton was still—" Blanche remembered him, remembered dancing with him; she did not like to say, "in prison."

"He came out the other day," signed Cazale. "But how like the police! over! Give a dog a bad name, and trust them to hunt it down and shoot it at sight!"

"I judge it's not so bad as all that in this country," said Hilton Toye. "That's more like the police theory about Seruton, I guess, bar drawing the beard."

"When did you hear of it?" said Cazale.

"It was on the tape at the Savoy when I got there. So I made an inquiry, and I figured to look in at the Kingston Court on my way to call upon Miss Blanche. You see, I was kind of interested in all you'd told me about the case."

"Well, that was my end of the situation. As luck and management would have it between them, I was in time to hear your man—"

"Not my man, please! You thought of him yourself," said Cazale sharply. "Well, anyway, I was in time to hear the proceedings opened against him. They were all over in about a minute. He was remanded till next week."

"How did he look?" and "Had he a beard?" demanded Cazale and Blanche simultaneously.

"He looked like a sick man," said Toye, with something more than his usual deliberation in answering, or asking questions. "Yes, Miss Blanche,

White Mountains Will Echo Sneezes

When Hay Fever Victims Assemble.

"KER-CHOO!"

BETHLEHEM, N. H., Aug. 31.—This town in the White mountains, sometimes called "the mecca of the sneezers," will be the scene of the annual convention of the United States Hay Fever Association, beginning September 2. Although those who do not know from individual experience or from contact with sufferers the woes of hay fever sometimes scoff at the disease, it is not regarded lightly by its victims. Physicians, many of whom suffer from the sneezing, asthmatic attacks, assemble here to discuss the latest forms of treatment.

hot-tempered, sometimes rather overbearing Sweep. Something had made him jump to the conclusion that Seruton could not possibly have killed Mr. Craven, whatever else he might have done in days gone by. So it simply was impossible, and anybody who took the other side would have to reckon henceforth with Sweep Cazale.

Mr. Toye already had reckoned with him, in a little debate begun outside the old summer schoolroom at Littleford, and adjourned rather than finished at the iron gate into the road. In her heart of hearts Blanche could not say that Cazale had the best of the argument. Toye had advanced a general principle with calm ability, but Cazale could not be shifted from the particular position he was so eager to defend, and would only enter into abstract questions to beg them out of hand.

Blanche rather thought that neither quite understood what the other meant; but she could not blink the fact that the old friend had neither the dialectical mind nor the unflinching courtesy of the new. That being so, with her perception she might have changed the subject; but she could see that Cazale was thinking of nothing else, and no wonder, since they were approaching the scene of the tragedy and his own old home, with each long dip of her paddles.

It had been his own wish to start upstream; but she could see the wistful path in his eyes as they fell once more upon the red turrets and the smooth green lawn of Uplands; and she neither spoke nor looked at him again until he spoke to her.

"I see they've got the blinds down still," he said detachedly. "What's happened to Mrs. Craven?"

"I hear she went into a nursing home before the funeral."

"I expect we should find Savago somewhere. Would you very much mind, Blanche? I should rather like to see just setting foot—with you—"

But even that effective final pronouncement failed to bring any buoyancy back into his voice; for it was not in the least effective as he said it, and he no longer looked her in the face. But this all seemed natural to Blanche, in the manifold and overlapping circumstances of the case. She made for the hut at the upper end of the lawn. And her prompt questioning acquiescence changed Cazale into further and franker explanation, before he could let her land to please him.

"You don't know how I feel that!" he exclaimed quite miserably. "I mean about poor old Seruton; he's gone through so much as it is, whatever he may have done to deserve it long ago, it is conceivable that he should go and do a thing like this the very moment he gets out. I ask you, is it even conceivable?"

Blanche understood him. And now she showed herself golden to the core, almost as an earnest of her fitness for the fires before her.

"Poor fellow," she cried, "he has a friend in you, at any rate! And I'll help you to help him, if there's any way I can."

He clutched her hand, but only as he might have clutched a man's.

"You can't do anything; but I don't forget that," he almost choked. "I meant to stand by him in a very different way. He'd been down to the depths, and I'd come up a bit; then he was good to me as a lad, and it was my father's partner who was the rule of him. I wanted to see him some time, and now—now I'll stand by him whatever happens and—whatever has happened!"

Then they landed in the old old inn. Cazale knew every knot in the post to which he fled Blanche's canoe.

Blanche laughed at his vigor of phrase; this was more like the old Toye.

CHAPTER VI.

Voluntary Service.

"And why do you think he can't have done it?"

Cazale had trundled the old canoe over the rollers, and Blanche was hardly gadding in the glassy strip alongside the weir. Below the lock there had been something to do, and Blanche had done it deftly and silently, with almost equal capacity and grace. It had given her a charming flush and sparkle; and what with the sun's bare hand on her yellow hair, she now looked even bonnier than in doors, yet not quite quite such a girl. But then every bit of the boy had gone out of Cazale. So that hour stolen from the past was up forever.

"Why do the police think the other thing?" he rejoined. "What have they got to go on? That's what I want to know. I agree with Toye in one thing. Blanche looked up quickly. "I wouldn't trust old Savago an inch. I've been thinking about him and his previous evidence. Do you realize that it's quite dark now moon after seven? It was pretty thick saying his man was hatched, with neither but now cap left behind to prove it! Yet now it seems he's put a beard to him, and next we shall have the color of his eyes!"

Blanche laughed at his vigor of phrase; this was more like the old Toye.

TROTTER BETTERS STANDING IN RACE FOR LYNCH TROPHY

Defeats United 3 to 2 in
Close and Exciting
Contest.

SCORES WINNING RUN IN 8TH

Lalick pitches a fine game, holding the visitors to two hits. United fields well, but is unable to swing. Trotter defeats Marguerite 3 to 2.

Trotter increased his standing in the Lynch Cup race last evening when United was defeated at Trotter. 3-2. The game was close and Trotter was not able to get the winning run across before the eighth inning. The United line could draw out two hits from the faithful delivery of Lalick and it was due to the slick fielding of Trotter that the two runs for United were scored.

Good batting on Trotter's part was necessary to make up for the errors, that team having five and United standing without one. Six hits were rapped out by Trotter, however. The only real feature of the game was a one-hand catch of a long fly by Trotter, who filled middle field for United.

Trotter is now tied with Marguerite and Collier for second place. The scores:

UNITED	AB	R	H	O	A	E
Eaton, inf.	4	0	2	0	0	0
J. Hallie, cf.	4	1	1	0	0	0
Stallman, p.	4	0	0	0	0	0

Three base hits: Travaski, Stallman, A. Prader, Spierdike, B. Prader. Double play—Konko, Spierdike. Stolen base—A. Prader. Struck out—by Stallman 1, by Lalick 4. Bases on balls—off Stallman 2, off Lalick 2. Umpire—Bills. Attendance—500.

COLLIER WINS FROM MARGUERITE TEAM

Collier and Marguerite tied for third place in the Lynch Cup series when Collier won the game played at that place yesterday, 2-2. Marguerite made a good start, getting two runs in the first three at bats, but after that Collier settled down and held them to a two run score. In the eighth inning things looked bad for Collier when the first Marguerite man up hit for three bases. Forgive, the Collier twister, held him right there, however, and the score remained in Collier's favor.

Collier.....010 200 000—3
Two base hits: Officer, Lahr, Long, Rehank, 3b. Three base hit: Swaney. Lead runner: Officer. Stolen bases: Damage, Long, Margo, off by Carroll 3, by Forgive 3. Bases on balls: off Carroll 2, off Forgive 2. Wild pitch: Forgive. Passed ball: Lahr. Attendance: 200. Time of game: 1:42. Umpire: Larkin.

SCHEDULE CHANGES

The following changes in the schedule for the Lynch Cup series have been announced by Manager L. E. Shutterly.

September 2, Marguerite at Trotter, postponed from August 26.
September 2, Lambert at Leisenring No. 2, postponed from September 1. This game will be called at 3 P. M.
September 7, Trotter at Leisenring No. 2. This game was to have been played on September 6.

SERIES BEGINS TONIGHT

Davidson and Hill Tops will clash in first game.

The first of a series of games that will be played between the West Side Hill Tops and the Davidson Third nine will be played on the Davidson grounds this evening. The game will be called at 5:30.
The Wheeler and South Connelleville places are also in the series. The teams have defeated all the amateur lines around this vicinity and now are determined to pick out the best team among them.

MECCA CIGARETTES

Twilight in the Orient—the call of the Muezzin—and the smoker turns to Mecca.

Millions of American smokers turn daily to MECCA—the cigarette of "Perfect Satisfaction"—the marvelous Turkish Blend, whose Quality makes it the largest selling brand in this country.

In the handy slide box, 10 for 5c
In the oval foil package, 20 for 10c

Wright-Metzler Co.

"The Store With the New Styles First"

Every Day More Pupils are Enrolling in Our Fall School of Dress Making

IF YOU HAVE NEVER SEWED: If you need to sew, but have neglected it recently, or even if you are an accomplished seamstress today, you can benefit by the instruction that these classes will afford you. Classes begin September Thirtieth with a very able instructor in charge, who will teach all the newest and most approved ideas known to the art of dress-making. Only \$5.00 for the full course of six lessons, during which one dress can be made complete. All materials and findings used by pupils must be purchased at this store. Instructions will be given in fitting and in the use of Victoriat Review Patterns. Unfortunately, we can accommodate only one hundred pupils, so if you would be one of them, it behooves you to enroll today at the pattern counter.

Send Your Boy Off to School in a Sensible, Serviceable, School Suit

Chosen at This Store

For of course you will wish to select it from the widest variety, the best materials, the greatest values to be had. Our showing this season is one of the very best we have ever had, and includes suitable models for every boy, whether you pay much or little. These suits have both style and good looks, but it is their supreme wearing qualities upon which we pride ourselves most.

Just a Few of the New Fall Waists Have Arrived

—And it is only a few when we stop to consider the many many pretty new Fall creations we have brought (and are expecting to arrive most any day) to make our Autumn showing the talk of the buying public. These few, though, will give a good idea of how fascinating and supremely stylish our new showing will be. We have a small assortment of beautiful new rainbow stripes and the most popular solid colors, in values up to \$6.50, but as an introduction to the new season, we invite especial attention to one great special.

A Few Very Fashionable Plaid Waists to Sell for \$1.98

—Plaid is good this Autumn—very good. This group includes alluring combinations of blue and red, black, blue and white, and others. Made with full length sleeves and comfortable roll collars. Sizes are 36 to 44. Some very pretty lace waists are included at this price.

Each Day Sees the Arrival of More Fashionable Fall Suits for Men

—And in the play of many colors, brown has the leading part. Greys, blues and fancy plaids are all good. Coats are cut a trifle longer with wide lapels and narrow shoulders. Some with patch pockets; some plain and vertical, with or without vent. Wright-Metzler's new clothing for Fall 1915 is not high priced either, as our large and splendid showing at \$10.00 to \$30.00 will easily show. Even if you aren't ready to buy, we'd like to show you these new goods.

Sensible Prices Elk Junior \$5

—Are also a help in your selection. At \$1.00, \$5.00, \$6.50 and \$7.50, we have an exceedingly attractive display of new plaids, checks, brown mixtures, greys and blues. An extra fine value at \$5.00. Some suits have two pairs of pants. See these today.

—Is a guaranteed all-wool suit of non-shrinkable material. Designed especially for school wear with many exclusive features to make it more wear-resisting and to save mother much mending. Many pretty little patterns to select from. May be had with two pairs of pants for \$7.50.

School Time Again Finds Us Ready With a Fine Showing of Boy's School Shoes

—And we have used extreme care to buy only shoes that we know will give a maximum of wear. They're neat and good looking, but it is of the service we wish to speak most. Durable Guss Metal and Storm Galt are the leaders; made into lace or button models. Built for the comfort and freedom of growing feet as well as for wear, as the broad toes and low wide heels will testify. The little boys' sizes are moderately priced at \$1.75 and more; the boys' sizes at \$2.25 and more.
